

Take your jobsite to new heights with an RGC Platform Hoist

The safest, fastest and most reliable way to raise materials to the roof.

Smart solutions for Maximum Productivity

From roofing and solar installation to general construction, RGC Platform Hoists deliver the lifting power that professionals depend on. Built for speed, safety, and long-term reliability, RGC hoists simplify material handling so crews can get more done — every time.

Choose from multiple drive and track configurations to fit your needs, including our latest innovation — the PHD Drive, engineered for modern performance in a lighter, more compact design.

FAST

Move heavy loads to the roof quickly and efficiently in less time, saving time and money.

SAFE

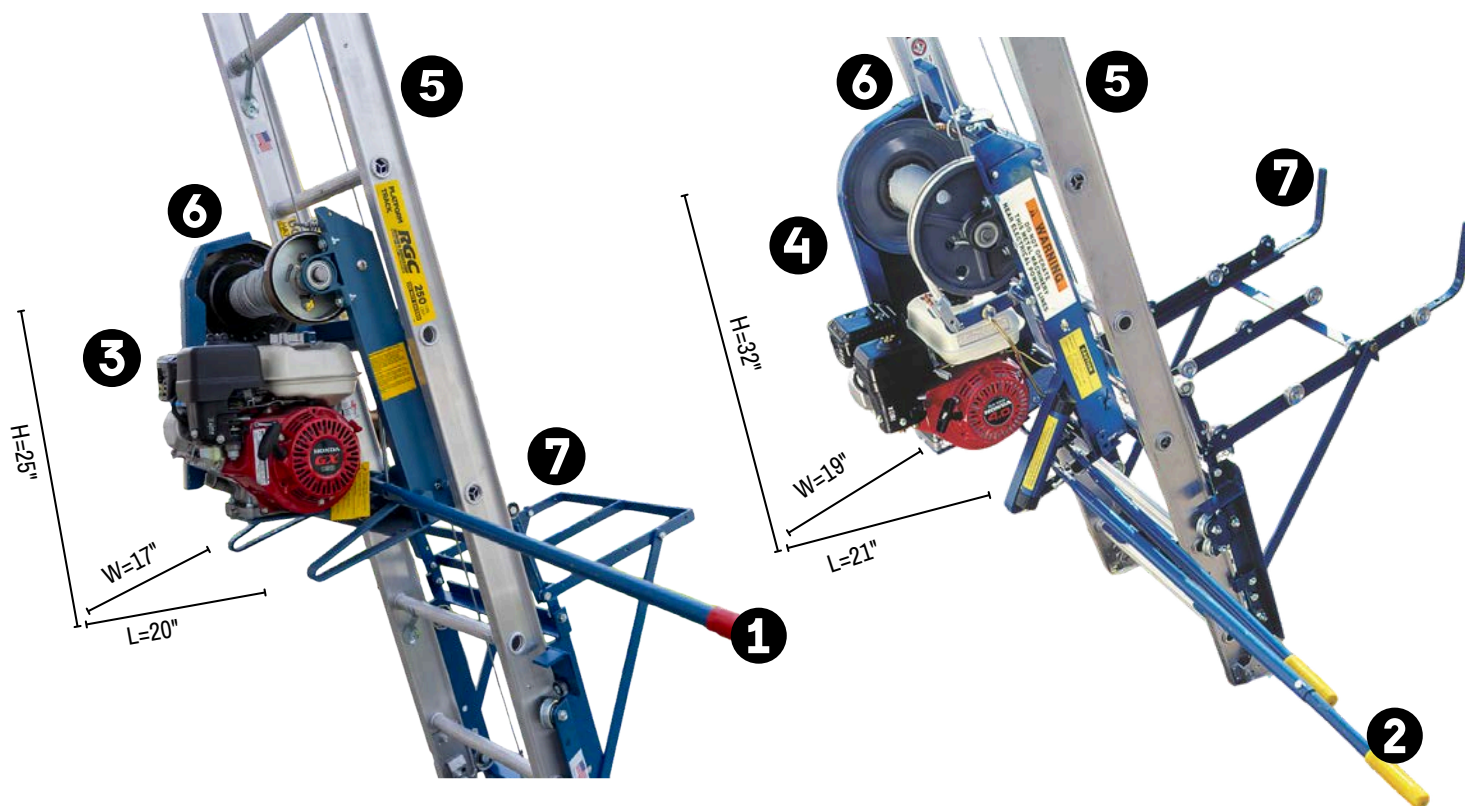

Lift heavy loads to the roof safely and securely, keeping you safely on the ground.

EASY

RGC hoists are easy to use, operate, and transport saving you time and money.

HOIST FEATURES

DRIVE OPTIONS Two convenient drives available to suit your needs and budget.

PHD DRIVE

The PHD drive features an all-new lightweight, compact design equipped with single handle control for easy operation for dependable performance across a wide range of jobsites. Capacities: 250 lbs. and 400 lbs.

- 1 Single Handle Control:** One intuitive handle does it all — raises, lowers, and brakes with ease. Long, 32" handle equipped with vinyl grip with side positioning keeps operators safely out from under the hoist for more confident control.
- 3 Compact frame:** Smaller, light design is easy to move on jobsites and simplifies both setup and transport. Built to fit into tight spaces, trucks, and trailers—so it's ready to go when and where you need it.

CLASSIC DRIVE

The heavy duty Classic drive features dual handle control and is built to withstand the toughest use. Delivering trusted performance, the classic has been the top choice of roofing professionals for decades. Capacities: 200 lbs. and 400 lbs.

- 2 Dual handles:** Two hand controls delivers precise, consistent, and safe operation. Long, 32" handles equipped with vinyl grip smartly positioned to the side keeps operators safely out from under the hoist for more confident control.
- 4 Heavy Duty Frame:** Large, heavy-duty frame is built for the toughest conditions and outlasts years of use. The Classic has been trusted by roofing pros for decades. Mounts to the 3rd and 5th track cross ties.

- 5 Lightweight Track** All aluminum track sections are highly durable and easy to assemble and transport. Sturdy splice plates connect sections for excellent stability. 4 ft. and 8 ft. sections configure heights up to 44 ft.
- 6 Heavy Duty Construction** PHD and Classic drives are constructed of all-metal frame and reinforced components, to handle heavy, all-day use—delivering dependable performance you can count on over the long haul.

- 7 Open Platform** Large, open platform holds a variety of materials. Equipped with removable metal rollers for long lasting use.

Ground Clearance RGC Drives mount up off the ground to easily accommodate steep landscapes and areas with shrubbery.

Customizable Select the power option that fits your work style—premium Honda for maximum performance, trusted Briggs & Stratton for reliable, everyday power or electric for indoor/outdoor projects. (Electric available on the Classic only.)

PIVOTING HOIST

The Safest Solution for Steep Roofs

SAFEST

The Pivoting Hoist delivers heavy materials up onto the roof where you are working and safely away from the edge.

NEXT LEVEL

The Pivoting track is adjustable from 35° to 70° fitting nearly any roof pitch, even sloped and uneven roofs.

BUILT FOR PROS

Roofing pros rely on the functionality of the pivoting hoist which performs like a conveyor belt for heavy loads.

LEVEL UP YOUR GAME

Take your roofing job to the next level with the RGC Pivoting Platform Hoist—designed to handle steep or awkward roof angles with ease. This exclusive version of our platform hoist features a pivoting track section adjustable from 35° to 70°, delivering materials up onto the roof, safely away from the roof's edge. No matter the roof pitch, this hoist adapts—so your team can work smarter, not harder.

- Delivers product safely away from the roof's edge
- Increase your productivity with the functionality of a conveyer belt
- Adaptable track configuration assembles easily
- Pivoting track section is adjustable 35° to 70°
- Adaptable to nearly any sloped roof
- Telescope support is included

Maximum Capacity: 400 lbs.
Height: 44 ft.

INCREASE PRODUCTIVITY WITH HOIST ACCESSORIES

SOLAR PANEL CARRIER

Attaches solar panels securely to safely raise them to heights with ease. (200, 250, and 400 lb. capacities)

PLYWOOD & TRUSS CARRIER

Lifts plywood, wallboard, roof trusses, framing materials, doors and more. (200, 250, and 400 lb. capacities)

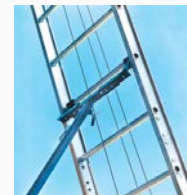

ROLLER ANGLE GUIDE

This 6 ft. guide moves material away from the roof edge on shallow inclines. (400 lb. only)

PLATFORM WITH GRAVEL HOPPER

Lifts granular materials and discharges loads into wheel barrows, spreaders and other containers. (400 lb. only)

TELESCOPING SUPPORT

Required to provide extra support on hoist heights over 28 ft. (Included in 44 ft. packages.)
